WHAT TO DO IN THE EVENT OF A DOG ATTACK:

IF YOU ARE THE DOG OWNER:

Accept responsibility - you are responsible for any cost related to your animal causing injury to any person outside your property, as well as any damage to any property, not being your own property.

Share your contact information with the victim of your dog attack.

Co-operate with the police and DOA officers and provide whatever information they may ask of you.

Take steps to ensure that this issue does not repeat itself.

IF YOU ARE ATTACKED:

Call the police or 9-1-1 and make a formal complaint.

If you were bitten, ensure that you see a doctor for treatment. Animal bites are easily infected.

Provide a statement to the police stating the date, time, location, description of animal, description of injury, with pictures if possible. Any hospital or medical records attesting to the injury are also useful.

Try to calmly and rationally establish dialogue with the owner of the animal, if known. If you cannot civilly come to a decision about liability, then a police investigation will be launched into the matter and both parties will be required to appear in court.

The Department of Agriculture (DOA) and The Royal Cayman Islands Police Service (RCIPS) are here to support you in meeting your responsibilities, but are also charged with investigating dog attacks or incidents of neglect when they occur.

 By providing ready access to fresh water and a diet to maintain full health and vigour.

Dog licenses can be obtained from the Department of Agriculture (DOA) at no cost.

It is good practice to also have your dog microchipped as this and the license will help you be reunited with your dog should it get lost or be impounded.

Dogs in enclosures or tethered must be exercised regularly. Remember to always clean up after your dog.
